

# THE ACTIVITY OF THE PROFESSIONAL PLATFORM CROK IN 2024 IN NUMBERS

## STRATEGIC DOCUMENTS AND PROJECTS IN WASTE MANAGEMENT

**4.5 mil.**  
inhabitants

We helped with projects and strategies for waste management companies providing waste management services in almost half of the Czech Republic.

**5**  
strategic documents

We prepared or participated in the preparation of strategic waste management documents of supra-regional importance

**55 000**  
tonnes of plastics

We have been involved in several projects of machine sorting of plastics, the total processed volume exceeds 1 million m<sup>3</sup> per year.

**18x**  
unique analyses of flood waste composition

We have carried out unique analyses of the composition of flood waste in order to manage it effectively in times of crisis, including an assessment of the potential for recovery of certain fractions of the waste

**32**  
types of packaging tested

We have performed complete testing of the sortability of packaging in accordance with the requirements of the Packaging Regulation (PPWR) for both Czech companies and foreign partners (Austria, Switzerland, Norway, Sweden, Belgium)

**4x**  
cooperation in development

We collaborated on the development of packaging with subsequent link to sorting and recycling potential.

**6** foreign trips to transfer foreign experience

We visited the largest and most modern plastics sorting line in Europe, the largest waste and recycling trade fair in Europe, gained information on trends in packaging waste development and recycling at the Plastic Recycling Show Europe, and participated in foreign conferences.

TRAINING AND EXCURSIONS

**8** countries

We have organised excursions and educational events abroad in the field of waste management for delegations from the Balkans, the Middle East and Central Europe.

## SORTING LINES

**3** methodologies developed to verify the efficiency of the sorting line

We have developed methodologies linked to specific technologies for acceptance testing of sorting lines and evaluation of their efficiency.

**18** comprehensive tests to verify the efficiency of sorting lines

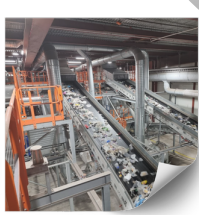

We have carried out several independent verifications of the efficiency of machine sorting lines in terms of meeting the required criteria for the capture and purity of the sorted commodities

**12** conferences

We have presented at a number of important conferences in the Czech Republic and abroad, where we shared the knowledge and experience of CROK.

**245** people

We introduced representatives of 42 organizations from the private and public sector to the operation of the automated plastic waste sorting system.

## COOPERATION AND PARTNERSHIP

**8** memorandums (signed long-term cooperation agreements) of cooperation with organisations in the Czech Republic and abroad

CROK as a platform that also creates a network of professional organisations through this form of cooperation, enabling the sharing of experience in the development of modern and efficient waste management.
